

# XBTCR Token – Whitepaper

#### 1. Introduction

XBTCR is a decentralized, community-driven cryptocurrency built on the Binance Smart Chain (BEP-20).

Our mission is to deliver a transparent, trustless and tax-free token ecosystem.

XBTCR empowers holders by removing unnecessary barriers such as high tax, centralized control, and hidden terms.

The vision is to create a token where the **community has full control**, and everything is open-source and on-chain.
